

Screaming Trumpet Pro: Cup, Straight, Harmon - Articulation List

	Articulation Group	Description
Standard	Sus	Sustained notes.
	Vib	Vibrato sustains.
	Stac	Staccato. Two dynamics (Bite, F). Comes with 4 alternating samples per dynamic. Round robin uses pitch shifting to multiply the number of alternating samples by 3. Light versions of staccato provide single note non-alternating samples. Bite samples are bright and very short staccatos, while the F staccatos are slightly longer.
	Legato	Fairly short duration samples with very little attack. Can be used with SIPS to produce a very convincing slurred legato effect between moderate to fast moving passages.
Effects	Jazzy	Variations include: <i>Harry James</i> (heavy vibrato that turns into a little shake) and <i>Turn</i> (Short jazzy articulation with a heavy vibrato at the end of the note).
	Falls Rough	Variations include: <i>Umph</i> and <i>Short</i> .
	Falls Smooth	Short smooth falls.
	Rise Rough	Short rough rise up to the final note
	Rise Smooth	Short smooth rise up to the final note
	Bends	Variations include: <i>Bend</i> (short bend down and then back up to note) and <i>Bend Down</i> (bend down to note without bending back up).
	Grace Notes	Half-step grace notes.
	Slur Up	Smooth slur up to note (like smooth grace notes).
	Shakes	Tight shake.
	Maynard	Up down rip at the end of a short note.
	Doit	Quick octave slur up after short note.
	Mordent	Half step up and then back down to note.
	Scale	Variations include: <i>Up</i> (4-note chromatic scale up to final note) and <i>Down</i> (4-note chromatic scale down to final note). Note that the accent is on the final note.
	Swells	Various length swells with a harsh attack followed by a crescendo.
	Crescendos	Various length with minimal attack followed by a crescendo.
Flutter Crescendos	Various length flutter tongue with minimal attack followed by a crescendo.	
Half Valve	Variations include: <i>Stac</i> (short half valve staccato) and <i>Shake</i> (little half-valve shake).	
Releases	Basic Release Triggers	Release triggers include: <i>Normal</i> (normal release) and <i>Rough</i> (rough fall off note).
	Maynard Release Triggers	Release triggers include: <i>Short</i> up down rips.
	Shake Release Triggers	Release triggers include: <i>Turn</i> .
	Doit Release Triggers	Release triggers include: <i>Normal</i> and <i>Flair</i> .
	Falls Rough Release Triggers	Release triggers include: <i>Umph</i> and <i>Short</i> .
	Falls Smooth Release Triggers	Release triggers include: <i>Short</i> .
